# The Most Advanced POS System is Also the Most Affordable: EZ SERVE™ POS

When it comes to POS systems, EZ Serve is in a league all its own. Finally, a feature rich POS system that's simple, affordable, and secure. EZ Serve is from a company that has been developing automated fueling systems for more than 25 years.

## **SIMPLE**

EZ Serve gives you a fully integrated POS software and hardware solution that streamlines all of your operations, from Fuel Controller and Payment Controller modules to a state-of-the-art POS terminal. EZ Serve supports all the quantities and types of items sold in C-stores. It doesn't get any simpler than this.

EZ Serve also has built-in features that make it simple to learn and simple to maintain.

- Intuitive, easy-to-learn, icon driven touch screens that make it the perfect system for an industry noted for high employee turnover.
- Quick-scan features that allow you to perform on-the-fly entries for items not found in the pricing database.

## **AFFORDABLE**

EZ Serve allows you to stretch your cash like never before. Ideal for cost-conscious retailers, its bundled solution comes with all the software and hardware you need:

- Terminal license
- Fuel and Payment Controller modules
- Durable, state-of-the-art hardware and peripherals
- Remote upgrades and diagnostics

## **SECURE**

With EZ Serve, you'll always be compliant with the industry's ever-changing security regulations. Plus, EZ Serve has received PA-DSS v1.2 validation, which ensures compliance with the industry's most stringent data security standards.

## **The NCR RealPOS 70XRT**

- Industry-leading serviceability
- Low total cost of ownership
- Exceptional energy efficiency

Also available with other NCR terminals.

**EZ SERVE™**  
Simple. Affordable. Secure.
